

# STAFF STYROFOAM RECYCLE PROGRAM

We have started working with a local company  
**“V & G’s Styro Recycle”**

The company is making an effort to go green by collecting clean, EPS Styrofoam throughout our buildings and staff. Our company is inviting all co-workers and staff to bring from home their clean Styrofoam packaging materials including packing peanuts to be recycled into extruded plastic products. The Styrofoam packaging from electronic and appliances can be recycled too.

V & G’s will only take clean white Styrofoam # 6  
(No food containers please for bacterial purposes)

Please place all clean white Styrofoam in the collection  
boxes located

---

(Area)

Doing the right thing just got a little easier. By reducing waste and saving the environment. Please share this with your friends and make all personnel aware of this program. And remind them that the collection boxes are located in the
